Copies of these presentations can be found on the VTCSOM Website at the following link: [LINK]

VTCSOM Humanitarian Statement

Dean Lee Learman and Dr. Joshua Adams

Following several geopolitical crises in recent history, VTCSOM administrators, faculty, and students collaborated to craft a VTCSOM Humanitarian Statement. This statement is meant to emphasize the provision of compassionate care to all patients, preservation of community within the academic health center, as well as recentering medical responsibilities in response to tragedy. A summary statement and full statement were created, and then endorsed by the student body prior to the Faculty Association meeting. Both of these statements were shared with those present at today’s meeting.

A motion was made to vote and endorse the summary statement, which received unanimous support from the Faculty Association.

Another motion was made to modify some language within the full statement. Pending review by the student body, the full statement will be returned to the Faculty Association for a vote of endorsement.

Adjournment

With no additional business, this meeting of the Faculty Association adjourned at 6:30 PM.

Avery J. Mahaney  
Faculty Affairs Manager
