

VTCSOM - College Award for Outreach Excellence

The purpose of the College Award for Outreach Excellence is to recognize a single outstanding faculty member in each college for their work in outreach, based on competitive submissions throughout their college.

- Both instructional and research faculty may apply.
- On rare occasions there may be more than one winner or a winning team.
- The winner will receive a plaque and a \$500 award (divided if necessary).
- Applicants can self-nominate or be nominated by another faculty member or staff.

Applicants are only required to submit a narrative about their outreach work over time, specifically indicating their passion for service, the impact service has had on their community, themselves, their world view and their careers.

- Outreach experience should be community based and not specifically job related.
- The essay should be no more than 750 words and should avoid a resume/listing type of presentation.
- All submissions should be sent to Courtney Powell at cbrakes@exchange.vt.edu.
- Based on submissions, Courtney will form a non-partisan faculty committee to select the winner(s).
- This will be a yearly award, so applicants that did not win in previous years are encouraged to apply again!
